Ordinary Shares

This prospectus supplement relates to an underwritten offering of an aggregate amount of 11,233,152 ordinary shares of AerCap Holdings N.V.

We have been advised that Waha AC Coöperatief U.A. (which we refer to as the selling shareholder), an investment vehicle affiliated with Waha Capital PJSC, is entering into funded collar transactions relating to our ordinary shares with each of Citibank N.A., London Branch, Deutsche Bank AG, London Branch and UBS AG, London Branch and/or their respective affiliates (each of which we refer to as a collar counterparty, and which collectively we refer to as the collar counterparties). We have been advised that, in order to hedge their obligations under the funded collar transactions, the collar counterparties will borrow an aggregate amount of 8,233,152 ordinary shares from the selling shareholder and the collar counterparties or their respective affiliates will sell those ordinary shares in an underwritten offering through Deutsche Bank Securities Inc., acting as underwriter. In addition, we have been advised that the selling shareholder will offer 3,000,000 ordinary shares for resale in an underwritten offering through the underwriter. We are not selling any shares in the underwritten offering and we are not a party to any of the funded collar transactions.

The underwriter proposes to offer our ordinary shares in the underwritten offering from time to time for sale in one or more transactions on the NYSE, in the over-the-counter market or in negotiated transactions, at market prices prevailing at the time of sale or at negotiated prices. See “Plan of Distribution.”

This prospectus supplement also relates to an aggregate amount of 3,690,153 ordinary shares, which are also being borrowed by the collar counterparties from the selling shareholder. We have been advised that the collar counterparties or their affiliates or agents, which may include the underwriter or its affiliates, will sell these ordinary shares, from time to time, pursuant to block sales, on the NYSE, in the over-the-counter market or in negotiated transactions, at market prices prevailing at the time of sale or at negotiated prices. We have been advised that these ordinary shares will not be offered by the underwriter in the underwritten offering and will be offered by the collar counterparties or their affiliates or such agents in order to hedge the collar counterparties’ obligations under the funded collar transactions. We have been advised by the collar counterparties that they expect that, over the same period when they or their affiliates or such agents sell those ordinary shares, they or their affiliates or such agents will purchase an equal number of ordinary shares in the open market. See “Plan of Distribution.”

Our ordinary shares are listed on the NYSE under the symbol “AER”. On November 28, 2014, the closing sale price of our ordinary shares on the NYSE was \$44.31 per share. You are urged to obtain current market quotations for our ordinary shares.

We will not receive any proceeds from sales of the ordinary shares offered hereby.

FORWARD LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus include “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. We have based these forward looking statements largely on our current beliefs and projections about future events and financial trends affecting our business. Many important factors, in addition to those discussed in this prospectus supplement, could cause our actual results to differ substantially from those anticipated in our forward looking statements, including, among other things:

- the availability of capital to us and to our customers and changes in interest rates,
- the ability of our lessees and potential lessees to make operating lease payments to us,
- our ability to successfully negotiate aircraft purchases, sales and leases, to collect outstanding amounts due and to repossess aircraft under defaulted leases, and to control costs and expenses,
- decreases in the overall demand for commercial aircraft leasing and aircraft management services,
- the economic condition of the global airline and cargo industry and the general economic and political situation,
- competitive pressures within the industry,
- the negotiation of aircraft management services contracts,
- our ability to achieve the anticipated benefits of the recently completed acquisition of International Lease Finance Corporation from American International Group, and

- regulatory changes affecting commercial aircraft operators, aircraft maintenance, engine standards, accounting standards and taxes.

The words “believe”, “may”, “aim”, “estimate”, “continue”, “anticipate”, “intend”, “expect” and similar words are intended to identify forward looking statements. Forward looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, the effects of future regulation and the effects of competition. Forward looking statements speak only as of the date they were made and we undertake no obligation to update publicly or to revise any forward looking statements because of new information, future events or other factors. In light of the risks and uncertainties described above, the forward looking events and circumstances described in this prospectus supplement might not occur and are not guarantees of future performance. The factors described above should not be construed as exhaustive and should be read in conjunction with the other cautionary statements and the risk factors that are included under “Risk Factors” herein, in our Annual Report on Form 20-F for the year ended December 31, 2013 incorporated by reference herein and in our interim financial reports on Form 6-K for the quarters ended June 30, 2014 and September 30, 2014 incorporated by reference herein. Except as required by applicable law, we do not undertake any obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

In addition, we have been advised that the selling shareholder will offer 3,000,000 ordinary shares for resale in the underwritten offering through the underwriter. We have been advised that the collar counterparties or their affiliates or such agents will sell these ordinary shares, from time to time, pursuant to block sales, on the NYSE, in the over-the-counter market or in negotiated transactions, at market prices prevailing at the time of sale or at negotiated prices. We have been advised by the collar counterparties that they expect, over the same period when they or their affiliates or such agents sell those ordinary shares, that they or their affiliates or such agents will purchase an equal number of ordinary shares in the open market.</p> <p>See “Plan of Distribution.”</p>
Shares Outstanding Before and After the Offering:	212,318,291 ordinary shares.
Use of Proceeds:	We will not receive any proceeds from sales of the ordinary shares offered hereby.
Lock-up:	We and the selling shareholder have agreed with the underwriter, subject to certain customary exceptions and except for the sales by the selling shareholder described in “Plan of Distribution”, not to dispose of or hedge any of our ordinary shares during the period from the date of this prospectus supplement until the date that is 60 days thereafter, except with the prior written consent of the underwriter. The foregoing does not, however, apply to any employee benefit plans or to any of our directors or executive officers. See “Plan of Distribution”.
Dividend Policy:	To date, we have not declared or paid any dividends on our ordinary shares. We intend to retain our future earnings to fund working capital and our growth and do not expect to pay dividends in the foreseeable future.
Funded Collar Transaction:	We are not a party to any of the funded collar transactions.

We have been advised that the sale of the shares by the collar counterparties or their respective affiliates in the underwritten offering will establish their initial hedge positions with respect to the funded collar transactions, and that they or their affiliates may modify their hedge positions from time to time thereafter during the term of the funded collar transactions.

The effect of the funded collar transactions, including any purchases and sales of our ordinary shares by the collar counterparties or their affiliates or agents, which may include the underwriter or its affiliates, to establish or modify the collar counterparties' hedge positions from time to time during the term of the funded collar transactions, may variously have a positive, negative or neutral impact on the market price of our ordinary shares, depending on market conditions at such times. In addition, purchases of our ordinary shares in connection with the termination of any portion of the loan of our ordinary shares to the collar counterparties under the funded collar transactions, or cash settlement of any funded collar transaction, may have the effect of increasing, or limiting a decrease in, the market price of our ordinary shares during the relevant unwind period.

See "Plan of Distribution" and "Risk Factors—The effect of the borrowing of our ordinary shares pursuant to the funded collar transactions, including the sales of our ordinary shares by the collar counterparties or their affiliates to establish or modify their hedge positions, may have a negative effect on the market price of our ordinary shares" for more information.

RISK FACTORS

Investing in our ordinary shares involves risk. Those risks are specified in the section captioned “Risk Factors” in Item 3 of our Annual Report on Form 20-F for the years ended December 31, 2013, filed with the SEC on March 18, 2014 and in Part II, Item 1 of our interim financial reports on Form 6-K for the quarters ended June 30, 2014 and September 30, 2014, filed with the SEC on August 28, 2014 and November 20, 2014. You should carefully consider those risks together with the other information contained or incorporated by reference in this prospectus supplement before deciding to invest in our ordinary shares. If any of those risks actually occur, our business, financial condition and results of operations could be materially and adversely affected. In that case, the trading price of our ordinary shares could decline, and you may lose all or part of your investment.

Risks Related to the Offering

The effect of the borrowing of our ordinary shares pursuant to the funded collar transactions and existing funded collar transactions, including the sales of our ordinary shares by the collar counterparties to such transactions or their affiliates to establish or modify their hedge positions, may have a negative effect on the market price of our ordinary shares.

We have been advised that the selling shareholder has agreed to lend to the collar counterparties an aggregate amount of 11,923,305 ordinary shares, which ordinary shares are being offered pursuant to this prospectus supplement. We have been advised by the collar counterparties that they or their respective affiliates intend to establish the collar counterparties’ initial hedge positions in respect of the funded collar transactions by establishing short positions in our ordinary shares through an underwritten offering under this prospectus supplement of 8,233,152 of the ordinary shares the collar counterparties have borrowed from the selling shareholder by the underwriter. The establishment of such short positions could have the effect of decreasing, or limiting an increase in, the market price of our ordinary shares. We have also been advised that the selling shareholder previously entered into funded collar transactions (the “existing funded collar transactions”) similar to the ones being entered into with the collar counterparties with certain counterparties thereto (the “existing collar counterparties”). The purchases and sales of our ordinary shares by the collar counterparties, the existing collar counterparties or their respective affiliates or agents, which may include the underwriter or its affiliates, to modify the collar counterparties’ and the existing collar counterparties’ respective hedge positions from time to time during the term of the funded collar transactions and the existing funded collar transactions may variously have a positive, negative or neutral impact on the market price of our ordinary shares, depending on market conditions at such times. In addition, purchases of our ordinary shares by the collar counterparties, the existing collar counterparties or their respective affiliates in connection with the termination by the selling shareholder of any portion of the loan of our ordinary shares to the collar counterparties under the funded collar transactions or to the existing collar counterparties under the existing funded collar transactions, as the case may be, or cash settlement of any funded collar transaction or existing funded collar transaction, may have the effect of increasing, or limiting a decrease in, the market price of our ordinary shares during the relevant unwind period. See “Plan of Distribution.”

USE OF PROCEEDS

We will not receive any proceeds from sales of the ordinary shares offered hereby.

SELLING SHAREHOLDER

The following table, which was prepared based on information provided to us by the selling shareholder, sets forth the number of ordinary shares that the selling shareholder beneficially owns before this offering, the 3,000,000 ordinary shares that the selling shareholder is offering for resale in the underwritten offering and the number of ordinary shares that the selling shareholder will beneficially own assuming sale of all the ordinary shares offered for resale in the underwritten offering. The ownership percentages indicated in the following table are based on 212,318,291 ordinary shares outstanding as of November 28, 2014.

We have determined beneficial ownership in accordance with the rules of the SEC. We understand, based on the information provided to us by the selling shareholder, that the selling shareholder named in the table below has shared voting and investment power with Waha Capital PJSC with respect to all ordinary shares that it beneficially owns. The ordinary shares offered by the selling shareholder were initially issued pursuant to exemptions from the registration requirements of the Securities Act. We have filed with the SEC, under the Securities Act, a Registration Statement on Form F-3 with respect to the offering of our ordinary shares from time to time by the selling shareholder, and this prospectus supplement forms a part of that registration statement.

Name of selling shareholder	Shares beneficially owned before the offering		Shares offered	Shares beneficially owned after the offering	
	Number	%		Number	%
Waha AC Coöperatief U.A.	29,846,611 ⁽¹⁾	14.1% ⁽¹⁾	3,000,000	26,846,611	12.6%

- (1) On September 2, 2014, we filed a prospectus supplement under the registration statement of which this forms a part, relating to 14,923,306 of our ordinary shares held by the selling shareholder. We have been advised that the selling shareholder entered into funded collar transactions with respect to those ordinary shares. We have also been advised that, although the ordinary shares offered thereby have been borrowed or sold, the selling shareholder will remain the beneficial owner of those ordinary shares until settlement of those funded collar transactions.

PLAN OF DISTRIBUTION

The ordinary shares offered by this prospectus supplement include an aggregate amount of 11,923,305 ordinary shares that will be borrowed by the collar counterparties. We have been advised that an aggregate of 8,233,152 of such shares will be sold in an underwritten offering through the underwriter. In addition, we have been advised that the selling shareholder is offering 3,000,000 ordinary shares for resale in an underwritten offering through the underwriter. An aggregate amount of 11,233,152 ordinary shares are being offered for sale in the underwritten offering.

Funded Collar Transactions

We have been advised that this prospectus supplement will also be used in connection with the sale of an aggregate amount of 3,690,153 additional ordinary shares to be borrowed and sold by the collar counterparties or their affiliates or agents, which may include the underwriter or its affiliates from time to time, pursuant to block sales, on the NYSE, in the over-the-counter market or in negotiated transactions, at market prices prevailing at the time of sale or at negotiated prices. See “Additional Offering by the Collar Counterparties or their Affiliates” below for more information.

We have been advised that 8,233,152 of the ordinary shares sold in the underwritten offering and the additional ordinary shares sold by the collar counterparties or their affiliates or agents, which may include the underwriter or its affiliates, are being sold in short sale transactions in order to hedge the collar counterparties’ exposure under the funded collar transactions. We have been advised that the collar counterparties will set-off their obligation to return the ordinary shares borrowed from the selling shareholder against any delivery obligation to them under the funded collar transactions.

Although 11,923,305 of the ordinary shares offered by this prospectus supplement are being borrowed and sold as described herein, we have been advised that the selling shareholder retains the right to recall the borrowed ordinary shares from the collar counterparties, and that the selling shareholder will remain the beneficial owner of the ordinary shares until settlement of the funded collar transactions.

If the selling shareholder recalls ordinary shares borrowed by the collar counterparties, a corresponding portion of the funded collar transaction will be cash settled. Alternatively, the selling shareholder may retain or otherwise sell its ordinary shares (or other ordinary shares) in connection with a cash settlement of the funded collar transaction.

We are not a party to any of the funded collar transactions, are not selling any shares in the offering and will not receive any proceeds from the sales of the ordinary shares in this offering.

Underwritten Public Offering

Subject to the terms and conditions set forth in the registration agreement, the underwriter named below has agreed to purchase from the selling shareholder and the collar counterparties or their respective affiliates and sell the number of our ordinary shares set forth opposite its name below.

Underwriters	Borrowed Shares	Resale Shares	Total Shares
Deutsche Bank Securities Inc.	8,233,152	3,000,000	11,233,152
Total	8,233,152	3,000,000	11,233,152

The underwriter proposes to offer our ordinary shares in the underwritten offering from time to time for sale in one or more transactions on the NYSE, in the over-the-counter market or in negotiated transactions, at market prices prevailing at the time of sale or at negotiated prices, subject to receipt and acceptance by it and subject to its rights to reject any order in whole or in part. In connection with the underwritten offering, the underwriter may be deemed to have received compensation from the selling shareholder in the form of underwriting discounts. The underwriter may effect such transactions by selling shares to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of ordinary shares for whom they may act as agents or to whom they may sell as principal.

We have been advised that in the underwritten offering of 11,233,152 of the ordinary shares, the underwriter has agreed to purchase such shares at a purchase price of \$41.23 per share.

The registration agreement provides that the obligations of the underwriter to purchase the ordinary shares offered hereby pursuant to the underwritten public offering are subject to certain conditions precedent and that the underwriter will purchase all of such ordinary shares if any of such ordinary shares are purchased.

We have agreed to indemnify the underwriter, the collar counterparties and the selling shareholder against certain liabilities, including liabilities under the Securities Act, or to contribute payments that may be required to be made in respect of any of these liabilities.

The underwriter is offering the shares, subject to prior sale, when, as and if accepted by them, subject to approval of legal matters by their counsel, including the validity of the ordinary shares, and other conditions contained in the registration agreement, such as the receipt by the underwriter of officer's certificates and legal opinions. The underwriter reserves the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

We will not receive any of the proceeds from the sales of the ordinary shares offered hereby.

We estimate that our share of the total expenses of this offering will be approximately \$290,000.

No Sales of Similar Securities

We and the selling shareholder have each agreed for a period of 60 days from the date of this prospectus supplement not to (i) offer, pledge, sell, contract to sell, sell any option or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any ordinary shares or any ordinary shares or any securities convertible into or exercisable or exchangeable for ordinary shares, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the ordinary shares or any such other securities, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of ordinary shares or such other securities, in cash or otherwise, without the prior written consent of the underwriters and the collar counterparties, other than, in the case of the selling shareholder, the funded collar transactions described herein or the ordinary shares to be sold hereunder and, in our case, any shares of our ordinary shares issued upon the exercise of options granted under terms of any employee plan, benefit or compensation arrangement or employment agreement described in the registration statement and this prospectus supplement.

Additional Offering by the Collar Counterparties or their Affiliates

Additionally, the collar counterparties or their affiliates or agents, which may include the underwriter or its affiliates, will offer for sale an aggregate amount of 3,690,153 additional ordinary shares using this prospectus supplement. The additional ordinary shares will not be included in the underwritten offering.

The collar counterparties or their affiliates or agents, which may include the underwriter or its affiliates, propose to offer the additional ordinary shares from time to time after the underwritten offering, pursuant to block sales, on the NYSE, in the over-the-counter market or in negotiated transactions, at market prices prevailing at the time of sale or at negotiated prices. In connection with the sale of these shares, the collar counterparties or their affiliates or such agents may effect such transactions by selling the shares to or through dealers, and these dealers may receive compensation in the form of discounts, concessions or commissions from those affiliates and/or from purchasers of shares for whom the dealers may act as agents or to whom they may sell as principals. Over the same period that the collar counterparties or their affiliates or such agents sell the additional ordinary shares, they or their affiliates or such agents expect to purchase at least an equal number of ordinary shares in the open market.

Price Stabilization, Short Positions and Penalty Bids

In connection with the underwritten offering, the underwriters may purchase and sell shares of our ordinary shares in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering. The underwriters must close out such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if underwriters are concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of the underwritten offering. Stabilizing transactions consist of various bids for or purchases of our ordinary shares made by the underwriters in the open market prior to the completion of the underwritten offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the underwriters have repurchased shares sold by or for the account of that underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our ordinary shares. Additionally, these purchases, along with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our ordinary shares. As a result, the price of our ordinary shares may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

New York Stock Exchange Listing

The shares have been approved for listing on the New York Stock Exchange, subject to notice of issuance, under the symbol “AER.”

Electronic Offer, Sale and Distribution of Shares

Certain of the underwriters or securities dealers may distribute prospectus supplements and accompanying prospectuses by electronic means, such as e-mail. A prospectus supplement and accompanying prospectus in electronic format is being made available on Internet web sites maintained by one or more of the underwriters and may be made available on web sites maintained by other underwriters. Other than the prospectus supplement and accompanying prospectus in electronic format, the information on any underwriter’s web site and any information contained in any other web site maintained by an underwriter is not part of the prospectus supplement or accompanying prospectus or the registration statement of which the prospectus supplement or accompanying prospectus forms a part.

Stamp Taxes

Purchasers of our ordinary shares offered by this prospectus supplement may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price. Accordingly, we urge you to consult a tax advisor with respect to whether you may be required to pay those taxes or charges, as well as any other tax consequences that may arise under the laws of the country of purchase.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
