- AerCap's Reports on Form 6-K, furnished to the SEC on May 14, 2014, January 5, 2015, January 16, 2015, March 30, 2015, April 2, 2015, April 23, 2015, May 7, 2015, May 18, 2015, May 20, 2015 and June 2, 2015.

FORWARD LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We have based these forward looking statements on our current beliefs and projections about future events and financial trends affecting our business. Many important factors, in addition to those discussed in this prospectus supplement, could cause our actual results to differ substantially from those anticipated in our forward looking statements, including, among other things:

- the availability of capital to us and to our customers and changes in interest rates,
- the ability of our lessees and potential lessees to make operating lease payments to us,
- our ability to successfully negotiate aircraft purchases, sales and leases, to collect outstanding amounts due and to repossess aircraft under defaulted leases, and to control costs and expenses,
- decreases in the overall demand for commercial aircraft leasing and aircraft management services,
- the economic condition of the global airline and cargo industry and the general economic and political conditions,
- competitive pressures within our industry,
- the negotiation of aircraft management services contracts,
- our ability to achieve the anticipated benefits of the acquisition of ILFC from AIG, and
- regulatory changes affecting commercial aircraft operators, aircraft maintenance, engine standards, accounting standards and taxes.

The words "believe", "may", "aim", "estimate", "continue", "anticipate", "intend", "expect" and similar words are intended to identify forward looking statements. Forward looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, the effects of future regulation and the effects of competition. Forward looking statements speak only as of the date they were made and we undertake no obligation to update publicly or to revise any forward looking statements because of new information, future events or other factors. In light of the risks and uncertainties described above, the forward looking events and circumstances described in this prospectus supplement and the accompanying prospectus might not occur and are not guarantees of future performance. The factors described above should not be construed as exhaustive and should be read in conjunction with the other cautionary statements and the risk factors that are included under "Risk Factors" herein, or in our Annual Report on Form 20-F for the year ended December 31, 2014 incorporated by reference herein. Except as required by applicable law, we do not undertake any obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA

These interim financial statements have been prepared pursuant to the rules of the SEC and U.S. GAAP for interim financial reporting, and reflect all normally recurring adjustments that are necessary to fairly state the results for the interim periods presented. Certain information and footnote disclosures required by U.S. GAAP for complete annual financial statements have been omitted and, therefore, it is suggested that these interim financial statements should be read in conjunction with our Annual Report on Form 20-F for the year ended December 31, 2014, filed with the SEC on March 30, 2015. The results of operations for the three months ended March 31, 2015 are not necessarily indicative of those for a full fiscal year.

The financial information presented as of December 31, 2014 and 2013 and for the years ended December 31, 2014, 2013 and 2012 was derived from AerCap Holdings N.V.'s audited consolidated financial statements included in our Annual Report on Form 20-F for the fiscal year ended December 31, 2014. The financial information presented as of March 31, 2015 and for the three months ended March 31, 2015 and 2014 was derived from AerCap Holdings N.V.'s unaudited condensed consolidated financial statements included in our Report on Form 6-K dated May 20, 2015. The unaudited condensed consolidated financial statements have been prepared on a basis consistent with our audited consolidated financial statements and pursuant to the rules of the SEC and U.S. GAAP for interim financial reporting and include, in the opinion of management, all adjustments of a normal recurring nature to provide a fair statement of the results for the reporting periods presented. Results for interim periods are not necessarily indicative of results that might be expected for any other interim period or for an entire year.

On May 14, 2014, we completed the acquisition of ILFC. Consolidated financial statements from periods prior to the acquisition of ILFC may not be comparable to those for periods after the acquisition was completed.

RISK FACTORS

Investing in our ordinary shares involves risk. Those risks are specified below and in the section captioned "Risk Factors" in Item 3 of our Annual Report on Form 20-F for the year ended December 31, 2014, filed with the SEC on March 30, 2015, which is incorporated by reference in this prospectus supplement. You should carefully consider those risks together with the other information contained or incorporated by reference in this prospectus supplement before deciding to invest in our ordinary shares. If any of those risks actually occurs, our business, financial condition and results of operations could be materially and adversely affected. In that case, the trading price of our ordinary shares could decline, and you may lose all or part of your investment.

If the ownership of our ordinary shares continues to be highly concentrated, it may prevent minority shareholders from influencing significant corporate decisions and may result in conflicts of interest.

Currently, our largest shareholder is AIG, which owns 46% of our ordinary shares and is entitled, pursuant to the Shareholders' Agreement (as defined below), to designate for election at the Annual General Meeting of Shareholders two members of our Board of Directors for so long as it owns more than 10% of our ordinary shares. Once AIG ceases to own at least 10% of our outstanding ordinary shares, one of its designees will be required to resign from our Board of Directors. Upon completion of this offering (but not the share repurchase), the selling shareholder will beneficially own approximately 12% of our outstanding ordinary shares (approximately 7% if the underwriters' option to purchase additional shares is exercised in full). See "Selling Shareholder—Beneficial Ownership". If the share repurchase is completed, upon completion of the share repurchase and this offering, the selling shareholder will beneficially own approximately 5% of our outstanding ordinary shares (no ordinary shares if the underwriters' option to purchase additional shares is exercised in full). Because of its ownership of our ordinary shares, its board designation rights and certain agreements with us described in "Selling Shareholder — Other Relationships with AIG" below, AIG may be able to significantly influence fundamental corporate matters and transactions, including the appointment of our directors, mergers, amalgamations, consolidations or acquisitions, the sale of all or substantially all of our assets, the amendment of our articles of association and our dissolution. This concentration of ownership may delay, deter or prevent acts that would be favored by our other shareholders, such as a change of control transaction that would result in the payment of a premium to our other shareholders. In addition, this concentration of share ownership may adversely affect the trading price of our ordinary shares if the perception among investors exists that owning shares in a company with a significant shareholder is not desirable.

Sales of our ordinary shares may negatively affect their market price.

As a result of the ILFC Transaction (defined below), AIG acquired approximately 46% of our ordinary shares. The ordinary shares issued in the ILFC Transaction to AIG were subject to a lock-up agreement providing for the staggered expiration of lock-up periods beginning nine months and ending 15 months after the closing of the ILFC Transaction. Pursuant to the Share Repurchase Agreement described under "Selling Shareholder — Share Repurchase Agreement" below, we have agreed to waive this lock-up agreement to the extent necessary to permit this offering and the share repurchase. These lock-up restrictions applicable to AIG's remaining shares, if any, will expire on August 14, 2015. Sales by AIG of their ordinary shares, or the perception in the market that these sales could occur, may negatively affect the price of our ordinary shares.

The closing of this offering is not contingent on the closing of the share repurchase.

The closing of this offering is not contingent on the closing of the share repurchase. See "Selling Shareholder — Share Repurchase Agreement — Share Repurchase and Notes Issuance." As a consequence, no assurance can be given to purchasers of the ordinary shares in this offering that the proposed share repurchase transaction will in fact be consummated.

We are subject to various risks and requirements associated with transacting business in many countries.

Our international operations expose us to trade and economic sanctions and other restrictions imposed by the United States, the United Kingdom, or other governments or organizations. For example, the U.S. Departments of Justice, Commerce, State and Treasury and other federal agencies and authorities have a broad range of civil and criminal penalties they may seek to impose against corporations and individuals for violations of economic sanctions laws, export control laws, the Foreign Corrupt Practices Act ("FCPA"), and other federal statutes and regulations, including those established by the Office of Foreign Asset Control ("OFAC"). Under these laws and regulations, the government may require export licenses, may seek to impose modifications to business practices, including cessation of business activities in sanctioned countries, and modifications to compliance programs, which may increase compliance costs, and may subject us to fines, penalties and other sanctions. A violation of these laws or regulations could materially and adversely impact our business, operating results, and financial condition.

On May 21, 2015, OFAC designated Al Naser Airlines of Iraq, a person and entity related to Al Naser Airlines, and nine individual aircraft, including two aircraft that we had previously sold to Al Naser Airlines, as blocked persons. Also on May 21, 2015, the U.S. Department of Commerce's Bureau of Industry and Security ("BIS") added Al Naser Airlines and another related person and entity to its Denied Persons List. The OFAC and BIS designations were based on Al Naser's reported diversion of the nine aircraft to a sanctioned entity, Mahan Air, in Iran, after purchasing the aircraft from multiple sources, and based on Al Naser's attempted purchase of other aircraft for the same purpose. Based on our internal review to date, there is no indication that the Company or any of its employees were aware of any such diversion. The BIS and OFAC investigations are ongoing and, in connection therewith, on May 27, 2015, OFAC issued a subpoena to the Company requesting information, including information related to other transactions that may have led to aircraft being diverted to Iran. The Company is cooperating fully with the investigations, which are in their early stages.

We have implemented and maintain in effect policies and procedures designed to ensure compliance by us, our subsidiaries and our directors, officers, employees, consultants and agents with respect to various export control, anti-corruption, anti-terrorism and anti-money laundering laws and regulations. However, such personnel could engage in unauthorized conduct for which we may be held responsible. Violations of such laws and regulations may result in severe criminal or civil sanctions, and we may be subject to other liabilities, which could materially and adversely affect our financial results.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the ordinary shares offered hereby.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of March 31, 2015, on an actual basis and on an as adjusted basis to give effect to (i) this offering and (ii) the share repurchase and consideration paid to the selling shareholder for the share repurchase consisting of (a) the issuance of \$500 million in aggregate principal amount of 6.50% fixed-to-floating rate junior subordinated notes due 2045 (the "Notes") to the selling shareholder and (b) the payment of \$250 million in cash on hand to the selling shareholder. The closing of this offering is not contingent on the closing of the share repurchase.

This information is unaudited and should be read in conjunction with our financial statements and related notes incorporated by reference into this prospectus supplement.

Our debt to equity ratio was 3.2 to 1 as of March 31, 2015. After giving effect to the share repurchase and the related issuance of the Notes (as described under "Selling Shareholder — Share Repurchase Agreement — Share Repurchase and Notes Issuance"), our debt to equity ratio will be 3.5 to 1. Our debt to equity ratio is obtained by dividing adjusted net debt by adjusted shareholders' equity. Adjusted net debt means consolidated total debt less cash and cash equivalents, and less a 50% equity credit with respect to \$1.0 billion of subordinated debt as of March 31, 2015 and \$1.5 billion of subordinated debt as adjusted to give effect to the share repurchase and the issuance of the Notes. Adjusted shareholders' equity means total shareholders' equity, plus the 50% equity credit. Adjusted net debt and adjusted shareholders' equity are non-GAAP financial measures.

SELLING SHAREHOLDER

Beneficial Ownership

The following table sets forth the number of ordinary shares that the selling shareholder beneficially owns before this offering and the share repurchase and the number of ordinary shares that the selling shareholder will beneficially own assuming (1) the sale of all the ordinary shares offered pursuant to this prospectus supplement and (2) completion of the share repurchase, both with and without giving effect to the underwriters' option to purchase additional ordinary shares. The ownership percentages indicated in the following table are based on 212,553,419 ordinary shares outstanding as of March 31, 2015.

We have determined beneficial ownership in accordance with the rules of the SEC. The ordinary shares offered by the selling shareholder were initially issued in connection with the ILFC Transaction (defined below). On May 14, 2014, AerCap acquired, through a wholly-owned subsidiary, 100% of the common shares of ILFC, which was then a wholly-owned subsidiary of the selling shareholder, for consideration consisting of \$2.4 billion in cash and 97,560,976 newly issued AerCap ordinary shares (the "ILFC Transaction"). We have filed with the SEC, under the Securities Act, a Registration Statement on Form F-3 with respect to the offering of our ordinary shares from time to time by the selling shareholder, and this prospectus supplement forms a part of that registration statement.

- (1) In the event that this offering is completed but the share repurchase is not, the selling shareholder will be the beneficial owner of 26,376,290 shares and approximately 12.4% of our issued and outstanding ordinary shares, assuming no exercise of the underwriters' option to purchase additional ordinary shares (or 15,698,588 shares and approximately 7.4% of our issued and outstanding ordinary shares if the underwriters' option is fully exercised).

Share Repurchase Agreement

Pursuant to the Share Repurchase Agreement, we and the selling shareholder have agreed to certain matters relating to the share repurchase, this offering and the issuance of the Notes, as described below.

Waivers Under Shareholders' Agreement and Registration Rights Agreement

Pursuant to the Share Repurchase Agreement, we and the selling shareholder have agreed, to the extent necessary to permit this offering and the share repurchase, to waive certain restrictions under the Shareholders' Agreement and the AIG Registration Rights Agreement (each as defined below), including certain transfer restrictions relating to lock-up periods and limitations on offering size.

Share Repurchase and Notes Issuance

Pursuant to the Share Repurchase Agreement, we have agreed to repurchase \$750 million of our ordinary shares from the selling shareholder in a private transaction at a price per share equal to the least of (i) the price per ordinary share paid by the underwriters to the selling shareholder in this offering, (ii) 104% of the last closing price per ordinary share reported on the NYSE prior to the public announcement of this offering and (iii) 110% of the opening price per ordinary share reported on the NYSE on the date of the Share Repurchase Agreement. The Share Repurchase Agreement provides that the consideration for the share repurchase will consist of the issuance of \$500 million in aggregate principal amount of Notes issued to the selling shareholder and the payment of \$250 million in cash to the selling shareholder.

Pursuant to the Share Repurchase Agreement, the Issuer will issue to the selling shareholder \$500 million in aggregate principal amount of the Notes, which will accrue interest at a fixed interest rate of 6.50% per annum until but excluding June 15, 2025, payable semi-annually. The Notes will accrue interest from and including June 15, 2025, until but excluding the maturity date or earliest redemption date, at a floating rate based on the three-month LIBOR rate plus 4.30%, reset quarterly, payable quarterly. The Issuer will have certain rights to defer interest payments on the Notes for one or more interest periods for up to five consecutive years per deferral period. Subject to the terms of the indenture governing the Notes, the Issuer may redeem the Notes, in whole or in part, at any time on and after June 15, 2025 at a redemption price of 100% of the principal amount redeemed, plus accrued and unpaid interest thereon. In addition, subject to the terms of the indenture governing the Notes, the Issuer may redeem the Notes, in whole but not in part, (1) upon a "rating agency event" (as defined in the Notes), at a make-whole redemption price, and (2) in the event that the Issuer may be required to pay additional amounts in respect of certain withholding taxes resulting from a change of law, at a redemption price of 100% of the principal amount redeemed, plus, in each case, accrued and unpaid interest thereon. If we experience a "change of control" followed by a "ratings decline" (each as defined in the Notes) (a "change of control triggering event"), the Notes may be redeemed at the Issuer's option, in whole but not in part, at a price of 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of the redemption. If (i) a change of control triggering event occurs and (ii) the Issuer does not give notice prior to the 31st day following the change of control triggering event to redeem all outstanding Notes, the interest rate per annum of the Notes will increase by 5.00%. The Notes will be guaranteed by AerCap Holdings N.V. and certain of its subsidiaries.

The closing of the share repurchase is contingent on the satisfaction of all conditions precedent to the closing of this offering and the satisfaction of certain other customary conditions. The closing of the share repurchase is expected to occur immediately prior to the closing of this offering. The closing of this offering is not contingent on the closing of the share repurchase and we cannot assure you that the share repurchase will be completed. See "Risk Factors — The closing of this offering is not contingent on the closing of the share repurchase."

The Share Repurchase Agreement provides that, upon the issuance of the Notes, the amount available under the AIG Revolver (as defined below) will be reduced by \$500 million.

Simultaneously with the closing of the share repurchase, the Issuer, the selling shareholder and the guarantors of the Notes (including AerCap) will enter into a registration rights agreement (the "Notes Registration Rights Agreement"). Under the Notes Registration Rights Agreement, the selling shareholder will have demand rights providing for the sale or distribution of the Notes in SEC registered offerings beginning 90 days after the closing of the share repurchase.

The information in this prospectus supplement regarding the share repurchase is included herein solely for informational purposes. Nothing in this prospectus supplement should be

construed as an offer to sell, or the solicitation of an offer to buy, any of our ordinary shares subject to the share repurchase or any of the Notes.

Other Relationships with AIG

The following is a summary of material provisions of certain agreements we currently have in place with AIG, and should be read together with the information set forth under "—Beneficial Ownership" above.

Shareholders' Agreement and Registration Rights Agreement with AIG

In connection with the closing of the ILFC Transaction, we entered into a shareholders' agreement, dated as of May 14, 2014, with AIG Capital Corporation and AIG (the "Shareholders' Agreement"), and a registration rights agreement, dated as of May 14, 2014, with AIG (the "AIG Registration Rights Agreement").

Board nomination rights

Currently, AIG is entitled to designate for election at the Annual General Meeting of Shareholders two directors of our Board for so long as it owns more than 10% of our ordinary shares, and for as long as AIG owns any of our ordinary shares, AIG is entitled to designate one director for election to our Board. Subject to the provisions of the Shareholders' Agreement, the Board will propose the AIG designated directors for appointment by the General Meeting of Shareholders. Once AIG ceases to own at least 10% of our outstanding ordinary shares, one of its designees will be required to resign from our Board of Directors. In addition, pursuant to the Share Repurchase Agreement, we may not grant any person the right to nominate more than two directors to the Board for as long as AIG and its subsidiaries own any of our ordinary shares.

Restrictions on voting of shares

Currently, AIG may vote shares constituting up to 24.9% of shares able to vote, and pursuant to the Share Repurchase Agreement, following the closing of this offering and the share repurchase, AIG may vote shares constituting no more than 19.9% of shares able to vote, in each case (taking into consideration such voting restriction), and must abstain from voting the remainder of its shares. This voting restriction will not apply to, and AIG may vote 100% of its shares, in connection with:

- any transaction requiring approval of a general meeting of shareholders under article 2:107a of the Dutch Civil Code (*Burgerlijk Wetboek*) ("DCC"), which includes an acquisition or disposition at a value in excess of one third of the total assets on a company's balance sheet, other than change of control transactions not approved by our Board;
- any merger or sale of substantially all of our assets or other change of control transactions involving us, in each case approved by our Board;
- changes to our organizational documents that would have a materially adverse and disproportionate effect on AIG relative to our other shareholders; and
- any proposal at a general meeting of our shareholders to limit or exclude AIG's preemptive rights.

If AIG were to own less than 19.9% of the outstanding ordinary shares able to vote following this offering and the share repurchase, this voting restriction will cease to apply upon the completion of this offering and the share repurchase.

[Table of Contents](#)

Until AIG holds less than 10% of the outstanding ordinary shares, AIG must abstain from voting any of its shares in connection with the election or removal of any director nominees not approved by our Board of Directors and any change of control transaction not approved by our Board of Directors.

Foundation structure

In the unforeseen event that AIG would challenge the enforceability of the voting restrictions in the Shareholders' Agreement, we are entitled to require AIG to transfer its shares to a Dutch foundation (*stichting*), in exchange for which AIG will receive a corresponding number of registered depository receipts from the foundation which will provide AIG with the economic benefits of its shares, while the voting rights will remain with the foundation.

The foundation would be subject to the same voting agreement as AIG, and AIG would be able to instruct the foundation how to vote on the specific matters on which AIG would be entitled to vote under the voting agreement provisions of the Shareholders' Agreement. The members of the board of the foundation would be appointed by us.

Lock-up periods

As a result of the ILFC Transaction, AIG acquired approximately 46% of our ordinary shares. Pursuant to the Shareholders' Agreement, the ordinary shares issued in the ILFC Transaction to AIG were subject to a lock-up agreement providing for the staggered expiration of lock-up periods beginning nine months and ending 15 months after the closing of the ILFC Transaction. Pursuant to the Share Repurchase Agreement, waivers of certain restrictions under the Shareholders' Agreement and the AIG Registration Rights Agreement, including certain transfer restrictions relating to lock-up periods, were granted to permit the sale of the ordinary shares in this offering and the share repurchase. All of the remaining shares, if any, owned by AIG following this offering and the share repurchase remain subject to a lock-up agreement expiring on August 14, 2015 (15 months after the closing of the ILFC Transaction), after which they may be sold subject to the other terms of the Shareholders' Agreement and applicable securities law.

Restrictions on transfer of shares

AIG may not transfer more than 9.9% of the outstanding shares to any one transferee, except in a bona fide broadly distributed underwritten public offering, and may not transfer any of the shares in connection with any tender offer, exchange offer or other acquisition not supported by our Board. Restrictions on the transfer of AIG's shares do not apply to transfers to us or wholly owned subsidiaries of AIG, or to transfers in connection with a merger or acquisition approved by our Board.

Standstill provisions

Until six months after the first date on which AIG owns less than 10% of the outstanding shares, AIG will be subject to customary standstill provisions.

Preemptive rights

If we issue equity securities for cash in an amount equal to or greater than 20% of our share capital, AIG, if the owner of any shares, will have customary preemptive rights, except to the extent such rights are limited or excluded by the general meeting of our shareholders, to purchase the portion of the issued shares required to maintain its ownership percentage in us.

[Table of Contents](#)

Share repurchases

If we offer to repurchase shares from other shareholders, we are required to offer to repurchase AIG's shares pro rata.

Registration rights

The AIG Registration Rights Agreement provides that, subject to the lock-up periods described above, AIG has customary registration rights with respect to the ordinary shares it owns. Pursuant to the Share Repurchase Agreement, AIG may not, without our consent, launch any offering within 60 days of any other underwritten offering of ordinary shares held by AIG. AIG will continue to have registration rights with respect to any remaining ordinary shares following this offering and the share repurchase.

Specific performance

The parties have agreed that they will be entitled to seek an injunction or injunctions to prevent breaches of the Shareholders' Agreement and the AIG Registration Rights Agreement and to enforce specifically the terms and provisions of the Shareholders' Agreement and the AIG Registration Rights Agreement without proof of damages or otherwise in addition to any other remedy to which they are entitled.

Governing law, submission to jurisdiction and dispute resolution

The Shareholders' Agreement is governed by Dutch law and the AIG Registration Rights Agreement is governed by New York law. The Shareholders' Agreement provides that all disputes will be settled in the courts of Amsterdam, the Netherlands. The AIG Registration Rights Agreement provides that all disputes will be settled by arbitration in accordance with the Rule of Arbitration of the International Chamber of Commerce.

Compliance agreement

We and AIG have entered into a financial reporting and compliance agreement pursuant to which AerCap has agreed to, among other things, maintain certain compliance policies, provide AIG with reports and access to certain information and personnel and cooperate with AIG in complying with certain regulatory requirements.

\$1.0 billion revolving credit facility with AIG

In connection with the ILFC Transaction, we executed an agreement with AIG under which it provides us with a \$1.0 billion five-year unsecured revolving credit facility (the "AIG Revolver"), which became effective upon the consummation of the ILFC Transaction. AerCap Ireland Capital Limited is the borrower under the facility. Loans under the facility bear interest at, at the election of the borrower, LIBOR plus 375 basis points or a base rate plus 275 basis points. Amounts borrowed under the credit facility can be repaid and reborrowed up until maturity. The credit facility contains customary borrowing conditions, representations, covenants and events of default. Pursuant to the Share Repurchase Agreement, the amount available under the AIG Revolver will be reduced by the aggregate principal amount of the Notes upon the issuance of the Notes to AIG. The AIG Revolver was undrawn as of the date hereof. The Share Repurchase Agreement provides that, upon the issuance of the Notes, the amount available under the AIG Revolver will be reduced by \$500 million.

Other related party transactions with AIG

Derivatives: The counterparty of some of our interest rate swap agreements, which were acquired as part of the ILFC Transaction, is AIG Markets, Inc., a wholly-owned subsidiary of AIG, and these swap agreements are guaranteed by AIG. The net effect in our Consolidated Income Statements for the year ended December 31, 2014 from derivative contracts with AIG Markets, Inc., was nil, as the cash expense of \$4.3 million was offset by a mark-to-market gain of \$4.3 million. The net effect in our Condensed Consolidated Income Statements for the three months ended March 31, 2015 from derivative contracts with AIG Markets, Inc. was nil, as the cash expense of \$0.9 million was offset by a mark-to-market gain of \$0.9 million.

Management fees: As a result of the ILFC Transaction, we received management fees of \$4.9 million in the year ended December 31, 2014 from Castle trusts, affiliates of AIG. We received management fees of \$1.8 million in the three months ended March 31, 2015 from the Castle Trusts, affiliates of AIG.

Related party receivable: As of December 31, 2014, we had a receivable from AIG of \$5.7 million relating to reimbursements on compensation programs as part of the ILFC Transaction. As of March 31, 2015, we had a receivable from AIG of \$0.3 million relating to reimbursements on compensation programs as part of the ILFC Transaction.

The underwriting agreement provides that the obligations of the underwriters to purchase the ordinary shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the ordinary shares (other than

[Table of Contents](#)

those covered by the underwriters' option to purchase additional ordinary shares described below) if they purchase any of the ordinary shares.

The selling shareholder has granted to the underwriters a 30-day option to purchase up to 10,677,702 additional ordinary shares from the selling shareholder at the public offering price less the underwriting discounts and commissions. To the extent the option is exercised, each underwriter must purchase a number of additional ordinary shares approximately proportionate to that underwriter's initial purchase commitment. Any ordinary shares issued or sold under the option will be issued and sold on the same terms and conditions as the other ordinary shares that are the subject of this offering.

Ordinary shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. If all the ordinary shares are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms. The following table shows the underwriting discounts and commissions that the selling shareholder is to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional ordinary shares.

	Per Ordinary Share	Total	
		Without Option	With Option
Underwriting discounts and commissions paid by the selling shareholder	\$ 1.225	\$ 87,201,240	\$ 100,281,425

We estimate that the total expenses of this offering payable by us will be \$625,000.

We and the selling shareholder have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

No Sales of Similar Securities

We and the selling shareholder have agreed that, for a period of 90 days from the date of this prospectus supplement, and certain of our officers have agreed that, for a period of 60 days from the date of this prospectus supplement, we and they will not, without the prior written consent of Citigroup Global Markets Inc. and Goldman, Sachs & Co., (i) offer, pledge, sell, contract to sell, sell any option or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any ordinary shares or any ordinary shares or any securities convertible into or exercisable or exchangeable for ordinary shares, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the ordinary shares or any such other securities, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of ordinary shares or such other securities, in cash or otherwise, other than, in the case of the selling shareholder, the ordinary shares to be sold in this offering, the sale of ordinary shares to us in connection with the share repurchase, the exercise of any registration rights under the Share Repurchase Agreement and securities held by affiliates of the selling shareholder in connection with ordinary course (a) proprietary and third party fund and asset management activities, (b) brokerage and securities trading activities and (c) financial services and insurance activities, in the case of certain of our officers, certain other customary exceptions, and, in our case, any shares of our ordinary shares issued upon the exercise of options granted under terms of any employee plan, benefit or compensation arrangement or employment agreement described, including by incorporation by

reference, in the registration statement, this prospectus supplement and the accompanying prospectus. The restrictions described above will only apply to securities held directly by the selling shareholder.

Price Stabilization, Overallotment Transactions, Syndicate Covering Transactions and Penalty Bids

In connection with this offering, the underwriters may purchase and sell ordinary shares in the open market. Purchases and sales in the open market may include stabilizing purchases, short sales, purchases to cover short positions, which may include purchases pursuant to the underwriters' option to purchase additional ordinary shares, and penalty bids.

- Stabilizing purchases involve bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Short sales involve secondary market sales by the underwriters of ordinary shares in excess of the number of shares the underwriters are obligated to purchase in this offering, which creates a syndicate short position.
 - "Covered" short sales are sales of ordinary shares in an amount up to the number of ordinary shares represented by the underwriters' option to purchase additional ordinary shares.
 - "Naked" short sales are sales of ordinary shares in an amount in excess of the number of ordinary shares represented by the underwriters' option to purchase additional ordinary shares.
- Covering transactions involve purchases of ordinary shares either pursuant to the underwriters' option to purchase additional ordinary shares or in the open market in order to cover short positions.
 - To close a naked short position, the underwriters must purchase ordinary shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the ordinary shares in the open market after pricing that could adversely affect investors who purchase in the offering.
 - To close a covered short position, the underwriters must purchase ordinary shares in the open market or must exercise the underwriters' option to purchase additional ordinary shares. In determining the source of ordinary shares to close the covered short position, the underwriters will consider, among other things, the price of ordinary shares available for purchase in the open market as compared to the price at which they may purchase ordinary shares through the underwriters' option to purchase additional ordinary shares.
- The underwriters may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased ordinary shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our ordinary shares or preventing or retarding a decline in the market price of the ordinary shares. As a result, the price of our ordinary shares may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

New York Stock Exchange Listing

The ordinary shares are currently listed on the NYSE under the symbol "AER".

Electronic Offer, Sale and Distribution of Shares

Certain of the underwriters or securities dealers may distribute prospectus supplements and accompanying prospectuses by electronic means, such as e-mail. A prospectus supplement and accompanying prospectus in electronic format is being made available on Internet web sites maintained by one or more of the underwriters and may be made available on web sites maintained by other underwriters. Other than the prospectus supplement and accompanying prospectus in electronic format, the information on any underwriter's web site and any information contained in any other web site maintained by an underwriter is not part of the prospectus supplement or accompanying prospectus or the registration statement of which the prospectus supplement or accompanying prospectus forms a part.

Stamp Taxes

Purchasers of our ordinary shares offered by this prospectus supplement may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price. Accordingly, we urge you to consult a tax advisor with respect to whether you may be required to pay those taxes or charges, as well as any other tax consequences that may arise under the laws of the country of purchase.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us, to persons and entities with relationships with us, to the selling shareholder and to persons and entities with relationships with the selling shareholder, for which they received or will receive customary fees and expenses. In addition, affiliates of certain of the underwriters from time to time have acted or in the future may continue to act as agents and lenders to us and our affiliates and subsidiaries under our or their respective credit facilities, for which services the affiliates of the underwriters expect to receive customary compensation. For example, an affiliate of Citigroup Global Markets Inc. serves as administrative agent and collateral agent under our Citi revolving credit facility.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of AerCap (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with us. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

The ordinary shares offered in this prospectus supplement and the accompanying prospectus have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (the "FIEA"). Notice to Prospective Investors in Australia

Not a Prospectus under the Corporations Act

This prospectus supplement and the accompanying prospectus do not constitute a disclosure document or a product disclosure statement for the purposes of the Corporations Act 2001 of the Commonwealth of Australia (the "Act") and has not been, and will not be, lodged with the Australian Securities and Investments Commission. No securities commission or similar authority in Australia has reviewed this document or the merits of the ordinary shares, and any representation to the contrary is an offence.

The ordinary shares will be offered to persons who receive offers in Australia only to the extent that:

- (a) those persons are "wholesale clients" for the purposes of Chapter 7 of the Act; and
- (b) such offer of the ordinary shares for issue or sale does not need disclosure to investors under Part 6D.2 of the Act.

[Table of Contents](#)

Any offer of the ordinary shares received in Australia is void to the extent that it needs disclosure to investors under the Act. In particular, offers for the issue or sale of the ordinary shares will only be made, and this document may only be distributed, in Australia in reliance on various exemptions from such disclosure to investors provided by section 708 of the Act and where the investors are also "wholesale clients" as described above.

Secondary Sale Restriction

As the offer for the ordinary shares will be made in Australia without disclosure under the Act, the offer of the ordinary shares for sale in Australia within 12 months of their issue or sale may, under section 707 of the Act, require disclosure to investors under the Act if none of the exemptions under the Act apply. Accordingly, any person to whom the ordinary shares are issued or sold pursuant to this document must not, within 12 months after the issue, offer (or transfer, assign or otherwise alienate) those ordinary shares to investors in Australia except in circumstances where disclosure to investors is not required under the Act or unless a compliant disclosure document or product disclosure statement is prepared and lodged with the Australian Securities and Investments Commission. Disclosure to investors would not generally be required:

- (a) under Part 6D.2 of the Act where:
 - (i) the ordinary shares are offered for sale outside of Australia;
 - (ii) the ordinary shares are offered for sale to categories of "professional investors" referred to in section 708(11) of the Act; or
 - (iii) the ordinary shares are offered to persons who are "sophisticated investors" that meet the criteria set out in section 708(8) of the Act; or
 - (iv) the ordinary shares are offered through a financial services licensee in satisfaction of section 708(10) of the Act; and
- (b) under Chapter 7 of the Act where the ordinary shares are only offered to persons who are "wholesale clients" within the meaning of section 761G of the Act.

However, Chapter 6D and Chapter 7 of the Act are complex, and if in any doubt, you should confer with your professional advisers regarding the position.

SPECIAL NOTE ABOUT FORWARD LOOKING STATEMENTS

This prospectus includes "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We have based these forward looking statements largely on our current beliefs and projections about future events and financial trends affecting our business. Many important factors, in addition to those discussed in this prospectus, could cause our actual results to differ substantially from those anticipated in our forward looking statements, including, among other things:

- the availability of capital to us and to our customers and changes in interest rates,
- the ability of our lessees and potential lessees to make operating lease payments to us,
- our ability to successfully negotiate aircraft purchases, sales and leases, to collect outstanding amounts due and to repossess aircraft under defaulted leases, and to control costs and expenses,
- decreases in the overall demand for commercial aircraft leasing and aircraft management services,
- the economic condition of the global airline and cargo industry and the general economic and political conditions,
- competitive pressures within the industry,
- the negotiation of aircraft management services contracts,
- our ability to achieve the anticipated benefits of the recently completed acquisition of International Lease Finance Corporation from a subsidiary of American International Group, Inc., and
- regulatory changes affecting commercial aircraft operators, aircraft maintenance, engine standards, accounting standards and taxes.

The words "believe", "may", "aim", "estimate", "continue", "anticipate", "intend", "expect" and similar words are intended to identify forward looking statements. Forward looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, the effects of future regulation and the effects of competition. Forward looking statements speak only as of the date they were made and we undertake no obligation to update publicly or to revise any forward looking statements because of new information, future events or other factors. In light of the risks and uncertainties described above, the forward looking events and circumstances described in this prospectus might not occur and are not guarantees of future performance. The factors described above should not be construed as exhaustive and should be read in conjunction with the other cautionary statements and the risk factors that are described under "Risk Factors" and incorporated by reference herein. Except as required by applicable law, we do not undertake any obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the ordinary shares by the selling shareholder.

SELLING SHAREHOLDER

The selling shareholder is American International Group, Inc. The selling shareholder has informed us that it exercises sole voting and investment authority and is deemed to beneficially own all of our ordinary shares it owns pursuant to Rule 13d-3 of the Securities Exchange Act of 1934.

The selling shareholder beneficially owns 97,560,976 ordinary shares prior to the offering. The information concerning the beneficial ownership of ordinary shares by the selling shareholder included in this prospectus has been obtained from the selling shareholder. The selling shareholder may sell all, some or none of the ordinary shares beneficially owned by it, and therefore we cannot estimate either the number or the percentage of ordinary shares that will be beneficially owned by the selling shareholder following any offering or sale hereunder. See the section captioned "Plan of Distribution."

We are registering the ordinary shares in order to permit the selling shareholder to offer the ordinary shares for resale from time to time. The table below sets forth the total number of ordinary shares that the selling shareholder may sell under this registration statement, as adjusted for any ordinary share split, ordinary share dividend or similar transaction.

	Ordinary Shares	Fully Diluted Ownership Percentage
Total	97,560,976	46.0%

The address of American International Group, Inc. is 175 Water Street, New York, New York 10038. For information regarding certain material relationships between the selling shareholder and the company, see "Major Shareholders and Related Party Transactions", Item 7 of our Annual Report on Form 20-F for the year ended December 31, 2014, filed with the SEC on March 30, 2015 and incorporated by reference herein.

TAX CONSIDERATIONS

Certain tax considerations relating to an investment in our ordinary shares are set forth in the section captioned "Taxation" in Item 10 of our Annual Report on Form 20-F for the fiscal year ended December 31, 2014 and filed with the SEC on March 30, 2015, which report is incorporated by reference herein.

PLAN OF DISTRIBUTION

The selling shareholder may, from time to time, sell, transfer or otherwise dispose of any or all of its ordinary shares or interests in ordinary shares on any stock exchange, market or trading facility on which the ordinary shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale, or at negotiated prices.

[Table of Contents](#)

The selling shareholder may use any one or more of the following methods when disposing of ordinary shares:

- underwritten public offerings, pursuant to which underwriters may resell the ordinary shares in one or more transactions, including in negotiated transactions at a fixed public offering price or at varying prices determined at the time of sale;
- "at the market" to or through market makers or into an existing market for the ordinary shares;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the ordinary shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise, or through derivative transactions or short sales;
- in other ways not involving market makers or established trading markets, including direct sales to purchasers or sales effected through agents;
- by pledge to secure debts and other obligations;
- broker-dealers may agree with the selling shareholder to sell a specified number of such ordinary shares at a stipulated price per share; and
- a combination of any such methods of sale.

The selling shareholder may enter into derivative transactions with broker-dealers, other financial institutions or third parties or sell securities not covered by this prospectus in privately negotiated or registered transactions. These transactions may involve the sale of ordinary shares by the selling shareholder by forward sale or by an offering (directly or by entering into derivative transactions with broker-dealers, other financial institutions or third parties) of options, rights, warrants or other securities that are offered with, convertible into or exchangeable for ordinary shares.

If the applicable prospectus supplement indicates, in connection with derivative transactions, the broker-dealers, other financial institutions or third parties may sell ordinary shares covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the broker-dealer, other financial institution or third party may use ordinary shares pledged by the selling shareholder or borrowed from the selling shareholder or others to settle those sales or to close out any related open borrowings of ordinary shares, and may use ordinary shares received from the selling shareholder in settlement of derivative transactions to close out any related open borrowing of ordinary shares.

In connection with the sale of our ordinary shares, the selling shareholder may loan or pledge, hypothecate or grant a security interest in the ordinary shares to broker-dealers, other financial institutions or third parties which in turn may resell or otherwise transfer the ordinary shares. The selling shareholder may also enter into option or other transactions with broker-dealers, other financial institutions or third parties or enter into one or more derivative securities that in each case

[Table of Contents](#)

may involve the delivery to such broker-dealer, other financial institution or third party of ordinary shares offered by this prospectus, which may then resell or otherwise transfer the ordinary shares.

The selling shareholder may also enter into hedging transactions with broker-dealers or other financial institutions and the broker-dealers or other financial institutions may engage in short sales of the ordinary shares in the course of hedging the positions they assume with the selling shareholder, including, without limitation, in connection with distributions of the ordinary shares by those broker-dealers or other financial institutions.

This prospectus may be supplemented or amended from time to time to describe a specific plan of distribution and any related transactions.

The aggregate proceeds to the selling shareholder from the sale of the ordinary shares offered by it will be the purchase price of the ordinary shares less discounts or commissions, if any. The selling shareholder reserves the right to accept and, together with its agents from time to time, to reject, in whole or in part, any proposed purchase of ordinary shares to be made directly or through agents. We will not receive any of the proceeds from any offering or sale hereunder.

The selling shareholder also may resell all or a portion of the ordinary shares in open market transactions in reliance upon Rule 144 under the Securities Act of 1933, provided that it meets the criteria and conforms to the requirements of that rule.

Any underwriters, broker-dealers or agents that participate in the sale of the ordinary shares or interests therein may be "underwriters" within the meaning of Section 2(a)(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the ordinary shares may be underwriting discounts and commissions under the Securities Act.

To the extent required, the ordinary shares to be sold, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter, any applicable commissions, discounts or concessions, and other terms with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

In order to comply with the securities laws of some states, if applicable, the ordinary shares may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the ordinary shares may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the selling shareholder that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of ordinary shares in the market and to the activities of the selling shareholder and its affiliates. In addition, to the extent applicable, we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling shareholder for the purpose of satisfying the prospectus delivery requirements of the Securities Act.

We and the selling shareholder may enter into agreements pursuant to which underwriters, dealers and agents who participate in the distribution of the ordinary shares may be entitled to indemnification by us or the selling shareholder against certain liabilities, including liabilities arising under the Securities Act, and to contribution with respect to payments which the underwriters, dealers or agents may be required to make.

The selling shareholder may also make sales through the Internet or through other electronic means. Since the selling shareholder may from time to time elect to offer securities directly to the public, with or without the involvement of agents, underwriters or dealers, utilizing the Internet or other forms of electronic bidding or ordering system for the pricing and allocation of such securities, you should pay particular attention to the description of that system provided in a prospectus supplement.

[Table of Contents](#)

Such electronic system may allow bidders to directly participate, through electronic access to an auction site, by submitting conditional offers to buy that are subject to acceptance by the selling shareholder, and which may directly affect the price or other terms and conditions at which such securities are sold. These bidding or ordering systems may present to each bidder, on a so-called "real-time" basis, relevant information to assist in making a bid, such as the clearing spread at which the offering would be sold, based on the bids submitted, and whether a bidder's individual bids would be accepted, prorated or rejected.

Upon completion of such an electronic auction process, securities will be allocated based on prices bid, terms of bid or other factors. The final offering price at which securities would be sold and the allocation of securities among bidders would be based in whole or in part on the results of the Internet or other electronic bidding process or auction.

ENFORCEABILITY OF CIVIL LIABILITIES

We are a Netherlands public limited liability company ("naamloze vennootschap"). Most of our directors and executive officers live outside of the United States. Most of the assets of our directors and most of our assets are located outside of the United States. As a result, it may not be possible to serve process on us or on such persons in the United States or to enforce judgments obtained in U.S. courts against them or us based on the civil liability provisions of the securities laws of the United States. Under our articles of association (i) certain disputes between, among others, our shareholders and us and or our directors must be exclusively submitted to Netherlands courts, and (ii) the legal relationships between, among others, those persons are governed by the laws of The Netherlands. We are advised that there is no enforcement treaty between the Netherlands and the United States providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, a judgment rendered by any federal or state court in the United States in such matters cannot automatically be enforced in the Netherlands. An application will have to be made to the competent Dutch court in order to obtain a judgment that can be enforced in the Netherlands. The Dutch courts can in principle be expected to give conclusive effect to a final and enforceable judgment of a competent United States court in respect of the contractual obligations under the relevant document without re-examination or re-litigation, but would require (i) proper service of process to have been given, (ii) the proceedings before such court to have complied with principles of proper procedure ("behoorlijke rechtspleging"), and (iii) such judgment not being contrary to the public policy of the Netherlands or the European Union. The court will have discretion to attach such weight to the judgment of any federal or state court in the United States as it deems appropriate and may re-examine or re-litigate the substantive matters adjudicated upon. Furthermore, a Dutch court may reduce the amount of damages granted by a federal or state court in the United States and recognize damages only to the extent that they are necessary to compensate actual losses or damages.

We have appointed Puglisi & Associates as our agent solely to receive service of process in any action against us in any U.S. federal court or the courts of the State of New York arising out of any offering or sale hereunder, as required by law.

DISCLOSURE OF SEC POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Under Dutch law, AerCap may purchase directors' and officers' insurance. AerCap carries such insurance. In addition, AerCap's articles of association include indemnification of its directors and officers against liabilities, including judgments, fines and penalties, as well as against associated reasonable legal expenses and settlement payments, to the extent this is allowed under Dutch law. Such indemnification is effective under Dutch law except with respect to any liability resulting from intentional acts, willful recklessness or serious culpability of such person or in case such person did not act in good faith and in the reasonable belief that his or her action was in the best interest of AerCap.

Insofar as such indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the registrant pursuant to the foregoing provisions, AerCap has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is therefore unenforceable. Under AerCap's articles of association, (i) the rights and obligations among or between AerCap and any of its current or former directors and officers, including the indemnification, are governed exclusively by the laws of the Netherlands; and (ii) any suit by and between AerCap and its current or former directors and officers shall be exclusively submitted to the courts of The Netherlands. When a current or former director or officer seeks to enforce the indemnification against AerCap before the courts of the Netherlands, such courts are not bound by the opinion of the Securities and Exchange Commission.
